ABOUT

Hello,

I am Melih, a software professional who embarked on the journey of software development after graduating in public administration. Following my degree at Dokuz Eylül University in Public Administration, my passion for the world of software led me to pursue the Software Expertise program at Arel University and participate in various bootcamps. During this journey, I focused on React, developed numerous projects, and reinforced my skills with certifications.

Later on, I delved into technologies such as Spring Framework, and SQL with the aim of becoming a full-stack developer. Recently, I have been working extensively on Spring Boot and sharing my progress on my Github account. I strive to do my best every day to enhance my skills further.

EXPERIENCE

01.2023 - 09.2023

Frontend Developer

JuniousTech/ Istanbul(Remote)

React | Next | Tailwind | Firebase | MongoDB

10.2023 - 02.2024
