ABOUT

Hello, I graduated from Dokuz Eylül University, department of public administration in 2022. During my school years, I had the opportunity to work and experience in the banking sector for about a year, as well as to get to know the software industry in a corporate company for a period of 6 months after I finished my school. I think that I have the characteristics of corporate communication, teamwork and leadership. Thanks to these features, I can work with my team in any workplace and achieve successful results. Also, I can build good relationships with people and act as a team leader when necessary.

CAREER

Individual Customer Representative at Kuveyttürk (2020-2021)

During my time working in the banking sector, I gained experience in conveying accurate information to customers and solving their problems. I can use this experience to communicate well with customers and provide them with the best service.

Front-End Developer at Arabuleu(10-2022/04-2023)

During my 6-month internship as a frontend developer, I focused on developing interactive and user-friendly websites and applications using modern web technologies. I honed my skills in HTML, CSS, and JavaScript to optimize user interfaces and enhance the user experience. Working collaboratively with the project team, I led efficient code development processes and improved codebase sustainability.
